

2017-18 Program Info

Better methods.
Better outcomes.
Better school.

www.method.la

Method is 100% tuition-free and is a blended and project-based charter school available to K-12 students in the following CA counties: Los Angeles, Orange, San Diego, Riverside, San Bernardino, Ventura, Kern and Imperial. Method is fully accredited by WASC and features small class sizes, individual attention, and hands-on experiential learning.

Education beyond the basics. Method features more than just the basics. It's hands-on, experiential, and customized to each student's unique needs. As a result, **a typical Method student gains 1.3 years of academic growth each school year.**

In 2016-17 Method served over **2,500** Southern California public school students in grades K-12.

Attendance Tracks (Methods)

There is no one size fits all in education. Method offers four attendance tracks (we call them methods). These methods are built to fit today's different types of learners. Regardless of which method you choose, you can be confident that our teachers and staff have your student's best interests in mind.

Synergy

- ✓ Catch up or graduate early from current high school.

Add ons & Experiential Learning

The Colony

Service Learning Option

Character Education / Service Learning is a critical part of a well-balanced education for students, and prepares them for a full life of humanity and citizenship. Method's service learning team is available to all students regardless of track. We call it The Colony, and it's a chance for all students to help the community and integrate service into learning.

The Foundry

Robotics & Hands-on Learning

Hands-on learning is huge at Method. All students who attend the Synergy track spend a minimum of an hour per day in The Foundry working on projects of their choice, whether it's robotics, programming, art, sustainability projects, and more. Students who are caught up in other work can spend even more time creating in The Foundry.

'Better methods. Better outcomes. Better School.' Method Schools is enrolling for all tracks for the 2017-18 school year. For our locations, simply check us out online or give us a call at (951) 461-4620.
