

# The Parent's Guide to a Smooth Midyear School Transfer

How to reset your student's academic year at Method Schools—without losing credits or momentum.

Is your student's current school no longer the right fit? Whether it's due to a demanding sports schedule, a lack of 1-on-1 support, or simply needing a fresh environment after a tough first semester, you don't have to wait until August to make a change.

At Method Schools, we specialize in "The Midyear Pivot." Here is exactly how we help you make the switch in days, not weeks.

## 1. The 48-Hour Transition

Most parents worry that transferring midyear will be a bureaucratic nightmare. We've streamlined our process to be as frictionless as possible:

- **Simple Enrollment:** Our online application takes less than 10 minutes.
- **Rapid Credit Audit:** Our registrars work directly with your previous school to pull transcripts so your student doesn't miss a beat.
- **Instant Start:** Once cleared, your student can often begin their first course within 48 hours.

## 2. Matching with an Expert Teacher

At Method, "online" doesn't mean "alone." We pride ourselves on having some of the best California-certified teachers in the state.

- **The Success Manager:** Every student is paired with a teacher who acts as a personal coach.
- **Tailored Instruction:** If your student struggled in the first semester, our teachers identify the gaps immediately and adjust the pace to ensure they master the material.

## 3. Protecting Your Student's Credits

One of the biggest myths is that moving schools mid-semester will "ruin" a student's transcript.

- **Seamless Transfer:** We accept credits from all accredited California schools.
- **NCAA Approval:** For our athletes, we ensure your course load remains NCAA-compliant so you stay eligible for recruitment.
- **Flexibility for "Catching Up":** If a student fell behind in the fall, our flexible pacing allows them to recover credits while still moving forward with their new classes.

#### 4. A Schedule Built Around Life

If your child is a competitive athlete finishing a fall season or a student who simply thrives in a quieter environment, Method adapts to *you*.

- No more 7:00 AM bells.
- No more rigid "one-size-fits-all" pacing.
- Just high-quality, tuition-free education that fits into your family's lifestyle.

#### Ready for a Fresh Start?

Method Schools is tuition-free, WASC-accredited, and currently enrolling for the second semester.
